

**EASY AS 1, 2, 3!**

Harmar's Universal Outside Lifts are one of the few available for vehicles with Class I, II or III hitches. Their quality features, construction and durability make them the most popular outside lifts on the market. The Swing Away option provides easy access to the trunk or lift gate of any vehicle.

**STEP 1.**

Easy to lower with one switch operation.

**STEP 2.**

Drive on and secure (automatic on some models).

**STEP 3.**

Raise and go!

Harmar Mobility produces lift and ramp products that enhance people's mobility, independence and quality of life. Products include Inside, Outside and Hybrid Auto Lifts, along with Single-fold and Multi-fold Portable Ramps.

**HYBRID LIFT SYSTEMS**

Hybrid Lifts provide the ultimate in convenience and simplicity of use by combining the best of both inside and outside lifts into unique solutions.

**INSIDE LIFT SYSTEMS**

The universal design of Harmar's inside lifts with lifting capacities from 200 to 400 lbs. allows installation in virtually any vehicle.

**MICRO LIFT SYSTEMS**

Designed to combine quality with budget, these user-friendly models feature manual, powered or combination capabilities.

**ACCESS RAMP SYSTEMS**

Designed for ease of use at home or while traveling. These commercial quality ramps are built to access vehicles, landings and other unkind elevation changes.

INTRODUCING...

**America's Leader in Lifts & Ramps**

**H**armar Mobility designs, engineers and produces American made lift and ramp products that enhance people's mobility, independence and quality of life. Our products include a complete line of Auto Lifts and Access Ramps.

Harmar Mobility products are available exclusively through a nationwide network of authorized dealers. Customers receive care from the nation's top mobility dealers. Harmar's dealers will assist in determining the best product to fit your needs and budget. It is imperative to have an authorized Harmar dealer demonstrate, install and service your Harmar lift.

Harmar's lifts and ramps are designed and built with the "Harmar difference" - they are simpler, stronger, lighter and easier to use.
